

# HOLLYWOOD FOR HABITAT FOR HUMANITY MENU OF OPPORTUNITIES 2008

Imagine not having a safe place for your children to sleep, running water for a hot shower, or enough space so that your family of five does not have to sleep in one room. Now, imagine an opportunity to provide these things for families in need. You can! Hollywood for Habitat for Humanity works with the entertainment industry to raise awareness of the need for safe, affordable housing and help eliminate substandard housing worldwide.

## SUPPORT HABITAT FOR HUMANITY

**Encourage your team** to work with Habitat for Humanity and enjoy the best team building experience you've ever had! **Engage your staff**, cast, band or crew to build with us! No previous experience is required! Habitat for Humanity builds 5 days a week, year-round. Our experienced on site crew leaders will teach you everything you need to know, equip you with tools from hammers to saws and have you out literally building a house in no time! Best of all, **you will be building side-by-side with the future homeowners** and other volunteers from around the world!

**Hold an event** or donate proceeds from an event. Make us the beneficiary of your film premiere or screening. Donate a portion from each ticket sold during a tour, from a merchandise item or **add our donation link to your webpage**. Host a dinner party at your home to introduce Habitat's mission to a special audience. All are simple ways to raise funds and awareness for Habitat for Humanity by utilizing events you are already participating in.

Make a financial donation or donation of materials to our Home Improvement Store. We are always in need of financial donations to buy the materials we use to build our homes. **Consider making a donation as a team**. Another way of supporting us is through our Home Improvement Store which accepts donations of furniture, appliances and building materials. We currently have partnerships with studios and awards shows to recycle set materials and set dressing. Donated items are used in two ways: to build new Habitat for Humanity homes and to be resold to the public where the profits from the proceeds will aid in financing our building projects. **Make sure your production is recycling with Habitat!**

As you know, the influence of "Hollywood" is far reaching. By giving a few hours of your time, **you can** literally help someone **build their home, educate others** on Habitat's work and **influence people around the world** to take action in their own communities. **Take a lead role** in the entertainment industry's ongoing partnership with Habitat for Humanity. Together, we will help hardworking families move into safe, decent homes — helping to eliminate substandard housing one house at a time.

**We hope you will get involved!**
